E-PACK SERIES

E-COMMERCE PACKAGING SYSTEMS

Texwrap's e-Pack Series are optimal solutions for high-volume e-commerce businesses.

The e-commerce industry is evolving faster than ever. Businesses that want to harness the power of supply chains need confidence in their ability to deliver the right products to the right customer. Factors to consider range from customer experience and damage reduction to packaging performance and operational throughput.

E-Pack Series systems produce ready-to-ship mail packages that effectively save on costs, labor, and time. With advanced features, Texwrap systems can minimize material usage and maximize efficiency, for your end-of-line mailer fulfillment.

The number one advantage to using flexible packaging instead of cases the reduction of your freight costs. Texwrap's e-Pack series solutions for businesses with mid to high eCommerce production volumes

WHY TEXWRAP?

Texwrap has brought its experience from shrink to ship products into the eCommerce world.

We offer fully integrated solutions that optimize automated mailing, and saves on manual packing labor costs and significant material cost savings versus premade bags.

Made in the U.S.A. quality and customer support, and our industry leading 10-Year Built-Better Backed-Better Warranty ensure the Lowest Total Cost of Ownership in the Industry.

E-PACK SERIES FEATURES & BENEFITS

PHOTO EYE MEASUREMENT

Advanced photo eyes accurately measure the product dimensions to create the perfectly sized package every time.

INTEGRATED LABELING SYSTEM

Integrated high-quality ID Technology labeler automates placement of shipping label.

FULLY AUTOMATIC SOLUTIONS

Fully automatic solutions available that can be installed at the end of existing lines and runs without human interaction.

SMART SCAN TECHNOLOGY

Detects if a package is removed from the sequence after scanning and stops the machine, ensuring product is not shipped to the wrong customer.

Wrap-to-Ship or Wrap-to-Stock

Whether you want to ship product directly to consumers or create multipacks to ship to distribution, Texwrap's e-Pack solutions can meet your needs.

Our E-Pack solution based on Texwrap's industry leading L-Sealer, can be configured for manual or automated feeding and for both shrink and non-shrink applications. For higher speeds and more automation, Texwrap's e-Pack solution based on our continuous motion side sealers may be required for the applications.

FLEXIBLE PACKAGING "BAGGING" SYSTEM

- A** Accurately measures dimensions OF each product allowing an infinite number of SKUs to enter the wrapper.
- B** TLS Series L-Sealer - Accommodates both shrink and non-shrink packaging applications.
- C** Integrated Labeling System (optional) - For Wrap-to-Ship applications, ID Technology's printer applicator is incorporated to print shipping labels.

SHRINK WRAP MAILING SYSTEM

- A** Accurately measures dimensions OF each product allowing an infinite number of SKUs to enter the wrapper.
- B** CSS Series Side Seal Wrapper - Accommodates both shrink and non-shrink packaging applications with printed or clear film.
- C** Multi-zone Shrink Tunnel (optional) - For applications where shrink film packaging is desired.
- D** Integrated Labeling System (optional) - For Wrap-to-Ship applications, ID Technology's printer applicator is incorporated to print shipping labels.

Texwrap provides high-quality stand-alone machinery and systems to produce commercially attractive shrink wrapped and shrink bundled products that are protected for storage and shipping. We provide one of the most comprehensive lines of cost-effective high-speed shrink wrapping and bundling solutions for a variety of applications including L-bar sealers, continuous motion side sealers, intermittent motion side sealers, lap sealers, and vertical wrappers, as well as tunnels, conveyors, and infeeds. We also specialize in designing and building systems for e-commerce packaging, as well as custom systems to fit unique applications for a variety of shaped products.

We have a network of highly-trained packaging distributor partners to better serve our customers. These partnerships ensure the best machinery and application fit, smooth startup, reliable local service, and long-term return on investment.
